

# The Prevention Policies Directory

QUICK FACTS FOR GRADUATE STUDENTS OF SCHOOLS OF  
POPULATION AND PUBLIC HEALTH

## As you prepare for a career in public health, how might you put the Prevention Policies Directory to work for you?

Centralized access to thousands of policy documents, the Directory helps you find policy information quickly and easily, acting as a starting point for:

- ✓ Completing assignments and course work;
- ✓ developing briefing notes;
- ✓ completing environmental scans;
- ✓ policy analysis and evaluation;
- ✓ and much more.

The Canadian Partnership Against Cancer's [Prevention Policies Directory](#) (the Directory) is an online searchable database of municipal, provincial/territorial, and federal cancer and chronic disease prevention policies from across Canada. Policies within the Directory span a number of risk factors, policy types, jurisdictions, and geographic locations, offering a snapshot of the Canadian healthy public policy landscape, supporting jurisdictions in learning from one another, and the process of healthy public policy development, adoption, implementation and evaluation.

The Directory compliments your course work in helping develop your knowledge and skills in the core competencies of public health, particularly those that pertain to public policy, by acting as a source of evidence to inform the development, implementation, and evaluation of healthy public policies that address pertinent public health issues.

## Policies in the Directory address the modifiable risk factors for cancer and chronic disease prevention:

**Alcohol Consumption**

**Built Environment**

**Infectious Agents**

**Nutrition**

**Occupational & Environmental Exposures**

**Physical Activity**

**Tobacco Use**

**UV and Ionizing Radiation**

Production of this document has been made possible through financial support from Health Canada.
